Datalogic Memor C2. The C2
has a high quality, low power
optical scan head with a durable
design. The C2 is used to read
and write barcode and machine-
readable-imaging data from the
most commonly used optical
marking applications.

Descrizione del prodotto It is a pocketable and powerful Android mobile computer with a thin design and light weight, the perfect companion for any data capture application. Pagine Pagine The Memor X3 offers a simple and intuitive scanning experience with two natural working positions, side-on for convenience and fast scanning of hand-held items, and top-down, ideal for comfortable scanning from a static stand with minimal handling of captured data. The memory line is supplied with an

optical imaging engine to deliver barcode and image scanning for the most common applications.

Memor X3 Single Slot Dock
Ethernet Driver for Memor -
CRTL-SFX Pro X2. The CRTL-SFX Pro X2 is a complete all-in-one laser solution for the scanning of barcodes and 2D machine-readable codes as well as document imaging. Memor™ 802.11n / Bluetooth® 5GHz Network Card. Installing the software and getting started is quick and easy.
